This book may not be reproduced by print, photoprint, microfilm or any other means, without written permission from the author and the publisher.

Dit kleurenboekje is geïnspireerd door het kleurenreferentiesysteem van de Duitse geoloog Abraham Gottlob Werner (1749-1817). Net zoals ik ben gemotiveerd door zijn werk om met de natuurkleuren te experimenteren, hoop ik jou ook te enthousiasmeren om te duiken in de kleuren van de natuur.

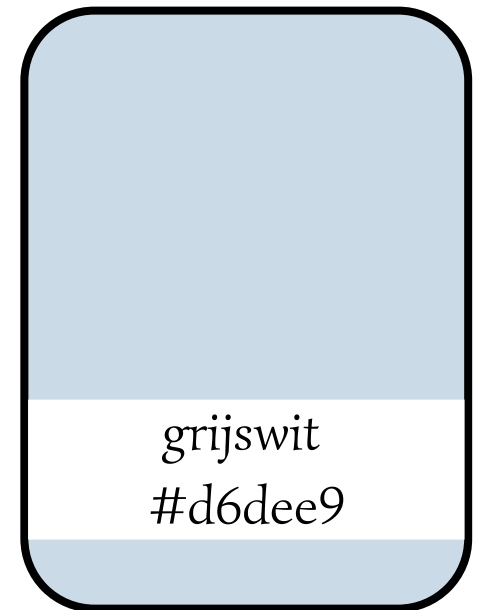

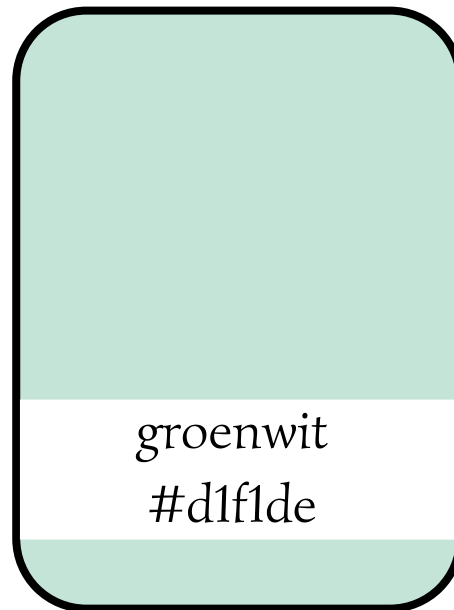

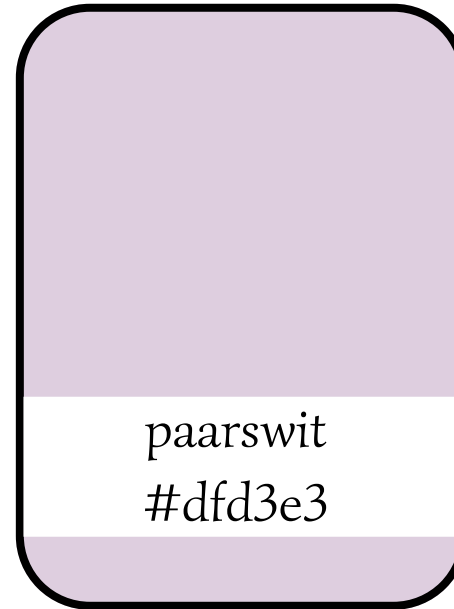

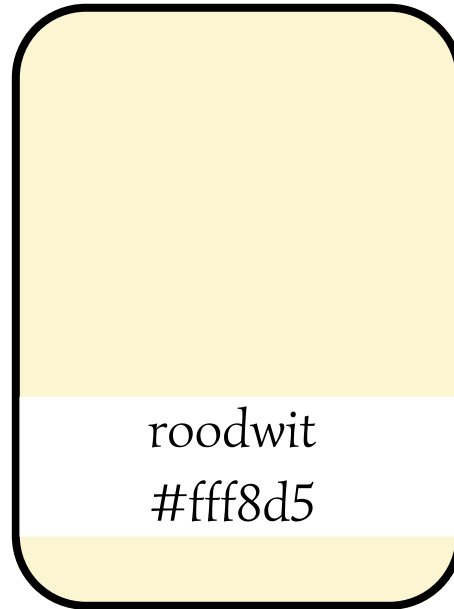

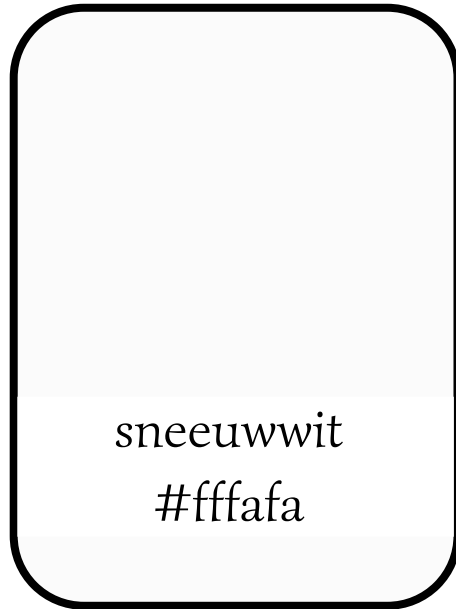

In het begin vind je de namen van de kleurentinten, kleurcodes en een voorgekleurd palet. Daarna zie je blanco paletten. De bedoeling is dat je zo dicht mogelijk bij de kleurtinten komt door zelf kleuren te mengen.

Je kunt dit kleurboek op verschillende soorten papier afdrukken. Hoe leuk is het om zo met verschillende materialen te kunnen werken, zoals potloden, pennen en verf.

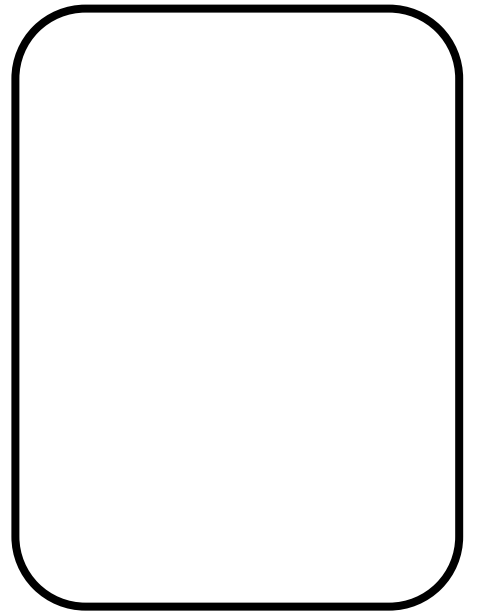

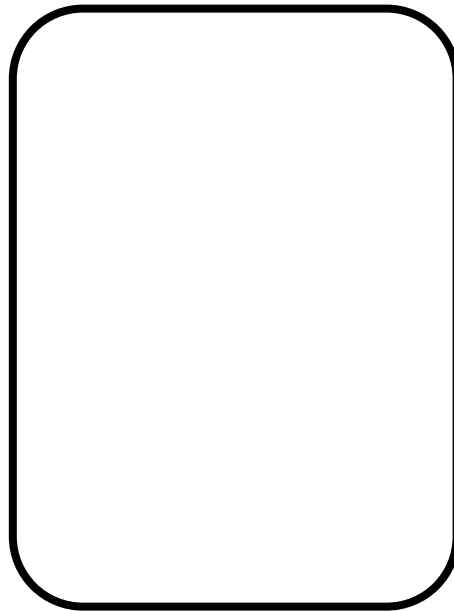

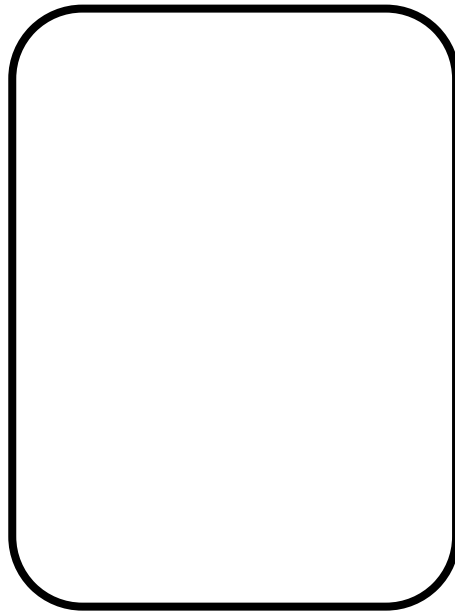

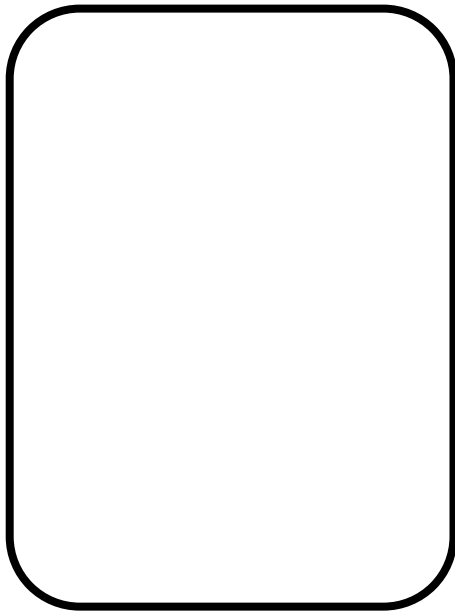

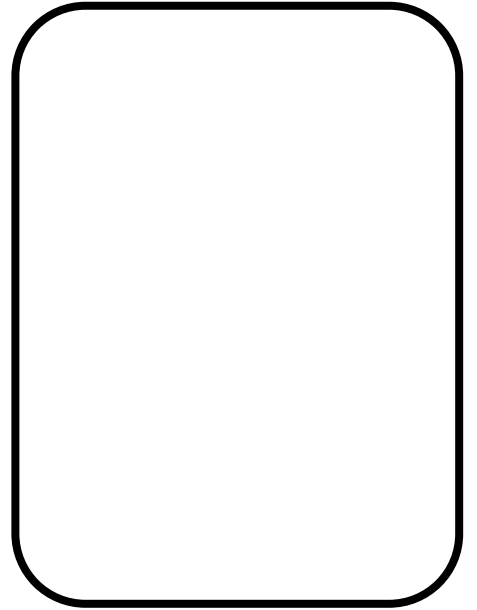

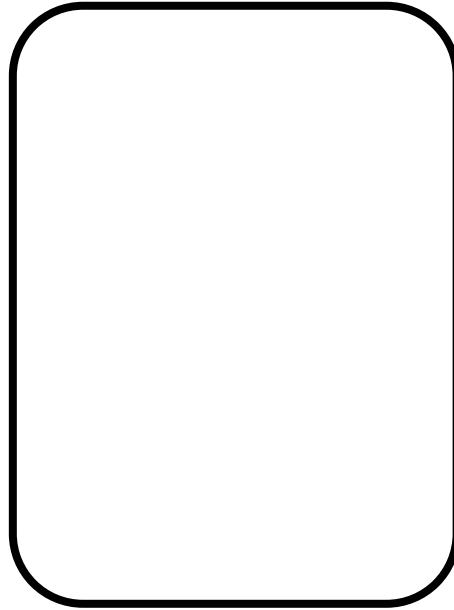

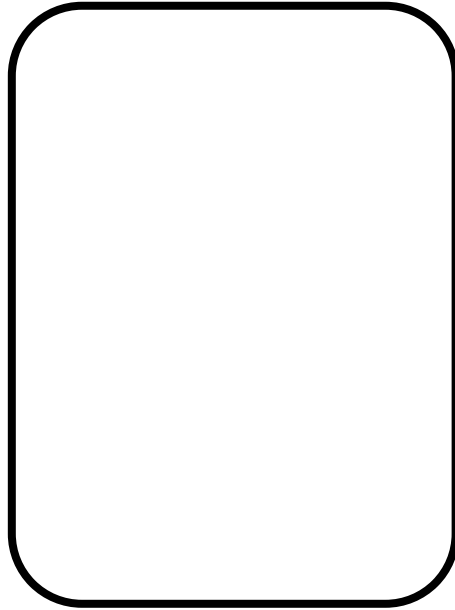

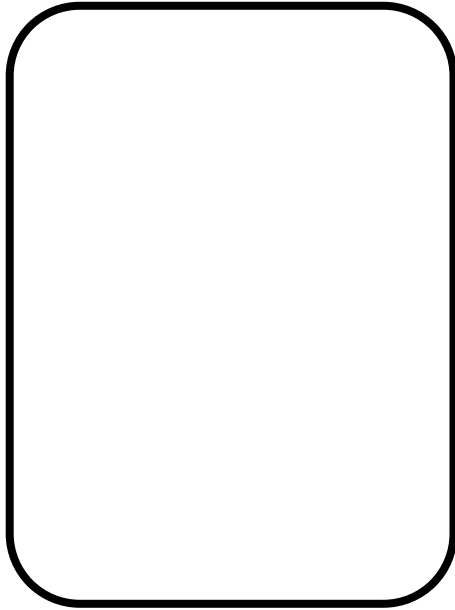

Ik wens je heel veel kleurenmagie!

Creatieve groetjes

“Kleur beïnvloedt het lichamelijke, geestelijke, mentale,
emotionele en spirituele niveau van de mensheid.
Kleur is een van de snelste manieren om te communiceren
en spreekt altijd de waarheid.”
~ Georgette Vierling, Asteria Coaching
